Overall Length:

4.187 inches

Overall Height:

0.945 inches

Overall Width:

3.437 inches

Component Type And Quantity:

1 reactor and 7 capacitor and 1 board and 13 resistor

Special Features:

Mounting method: slot; mounting configuration: three 0.136 in. By 0.187 in. Slots irregularly spaced; fsc application data: radio set, radio navigation airborne an/arn-62

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
