Overall Length:

2.688 inches

Overall Height:

0.297 inches

Overall Width:

1.063 inches

Component Type And Quantity:

4 capacitor and 1 diode and 1 board and 9 resistor and 1 transistor

Special Features:

Mounting method: holes for screws; mounting configuration: two 0.140 in. Diameter mtg holes spaced 2.375 in. Center to center; fsc application data: receiving set, radio navigation, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
