Overall Length:

1.495 inches

Overall Height:

1.325 inches

Overall Width:

1.343 inches

End Application:

Amplifiers, intermediate frequency, radio, except navigation, airborne

Component Type And Quantity:

1 printed wiring board and 5 screw and 1 board

Special Features:

Crystal unit set 1, spacer, sleeve 7, post, spacer 3, plate, crystal holder 1; mounting method-soldered to amplifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
