Overall Length:

9.250 inches

Overall Height:

1.062 inches

Overall Width:

5.750 inches

Component Type And Quantity:

15 capacitor and 1 coil and 3 diode and 1 ejector and 1 insulator and 1 relay and 20 resistor and 7 transistor

Special Features:

Mounting method: terminal; major components: circuit card 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51110
