Overall Length:
9.250 inches
Overall Height:
1.062 inches
Overall Width:
5.750 inches
Component Type And Quantity:
15 capacitor and 1 coil and 3 diode and 1 ejector and 1 insulator and 1 relay and 20 resistor and 7 transistor
Special Features:
Mounting method: terminal; major components: circuit card 1
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A511I0
