**Overall Length:**

9.250 inches

**Overall Height:**

1.062 inches

**Overall Width:**

5.750 inches

**Component Type And Quantity:**

15 capacitor and 1 coil and 3 diode and 1 ejector and 1 insulator and 1 relay and 20 resistor and 7 transistor

**Special Features:**

Mounting method: terminal; major components: circuit card 1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A51110
