Overall Length:

6.000 inches

Overall Height:

1.120 inches

Overall Width:

4.500 inches

Special Features:

Bmounting method: connector and rack; major components: capacitor, diode; jack, tap; lead, electrical; pad, mtg; printed wiring board; spacer, mtg; transformer; transistor; component quantity: 85

Fsc Application Data:

Underwater sound

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
