**Overall Length:**

7.250 inches

**Overall Height:**

0.375 inches

**Overall Width:**

4.750 inches

**Component Type And Quantity:**

25 capacitor and 4 coil and 1 board and 55 resistor and 15 semiconductor and 5 transformer and 11 transistor

**Special Features:**

Mounting method: socket

**Fsc Application Data:**

Power factor meters, except specially designed

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A511I0
