Overall Length:

6.560 inches

Overall Height:

0.693 inches

Overall Width:

5.500 inches

Special Features:

Mounting method: rack; major components: capacitor, diode, printed wiring board, resistor transistor; component quantity: 32

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
