Overall Length:

3.484 inches

Overall Height:

1.466 inches

Overall Width:

1.531 inches

Component Type And Quantity:

3 coil and 1 clamp and 4 bracket and 1 terminal and 2 resistor and 3 capacitor and 2 suppressor and 5 terminal

Special Features:

Mounting method: screw; mounting configuration: three no. 4 /0.112 in./-40 thd screws irregularly spaced; fsc application data: amplifier, radio frequency, except navigation, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
