Basic Shape Style:

Rectangular or square

Identification Designator:

657277-06481

Inclosure Type:

Encased

Operating Control Method:

Automatic

Installation Design:

Rack

Control Type:

Remote

Circuit Construction Type:

Solid state

Signal Data Type Per Channel:

Operating channel discrete voltage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
