**Basic Shape Style:**

Rectangular or square

**Identification Designator:**

657277-06481

**Inclosure Type:**

Encased

**Operating Control Method:**

Automatic

**Installation Design:**

Rack

**Control Type:**

Remote

**Circuit Construction Type:**

Solid state

**Signal Data Type Per Channel:**

Operating channel discrete voltage

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
