Overall Length:

2.598 inches

Overall Height:

1.100 inches

Overall Width:

1.436 inches

Component Type And Quantity:

1 case and 4 resistor and 1 transistor and 1 socket

Special Features:

Mounting method: bolt; mounting configuration: three no. 0.112 in. -40 mtg screws irregularly spaced; fsc application data: amplifier subassembly, radio, except navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
