**Overall Length:**

2.598 inches

**Overall Height:**

1.100 inches

**Overall Width:**

1.436 inches

**Component Type And Quantity:**

1 case and 4 resistor and 1 transistor and 1 socket

**Special Features:**

Mounting method: bolt; mounting configuration: three no. 0.112 in. -40 mtg screws irregularly spaced; fsc application data: amplifier subassembly, radio, except navigation, nonairborne

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511I0
