Overall Length:

16.000 inches

Overall Height:

5.000 inches

Overall Width:

6.250 inches

Component Type And Quantity:

2 cable and 6 capacitor and 1 chassis and 6 clamp and 3 standoff and 4 post and 5 rectifier and 11 resistor and 2 cap and 3 sleeving and 9 stud and 2 lug

Special Features:

Mounting method: bolt; mounting configuration: six 0.218 in. Diameter holes irregularly spaced; major components: wire bus elec 3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
