Overall Length:

9.750 inches

Overall Height:

2.750 inches

Overall Width:

3.000 inches

Component Type And Quantity:

3 tube and 3 shield and 3 socket and 10 capacitor and 18 resistor and 1 reactor and 1 jack and 1 board

Special Features:

Mtg method: any acceptable and chassis; mtg config: six 0.166 in. Diameter mtg holes irregularly spaced; fsc app data: transmitting set, radio, navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
