**Basic Shape Style:**

Rectangular or square

**Inclosure Type:**

Encased

**Circuit Construction Type:**

Solid state

**Frequency Per Channel:**

8.0 gigahertz operating channel err-100

**Frequency Adjustment Type:**

Continuous

**Special Features:**

Minus 12.0v, 540 ma external dc operating voltage

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A32200
