End Application:

A-10 and f-16 aircraft age

Component Type And Quantity:

1 printed wiring board and 2 heatsink and 8 capacitor and 19 resistor and 1 inductor and 4 diode and 7 transistor and 1 ejector

Special Features:

Fsc application-test panel assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
