**End Application:**

A-10 and f-16 aircraft age

**Component Type And Quantity:**

1 printed wiring board and 2 heatsink and 8 capacitor and 19 resistor and 1 inductor and 4 diode and 7 transistor and 1 ejector

**Special Features:**

Fsc application-test panel assembly

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A51110
