Overall Length:

2.750 inches

Overall Height:

0.690 inches

Overall Width:

1.530 inches

Operating Temperature Range:

-25.0/+63.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Operating Control Method:

Manual

Control Type:

Remote

Circuit Construction Type:

Solid state

Overall Gain:

25.0 decibels

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
