Overall Length:

1.530 inches

Overall Height:

1.020 inches

Overall Width:

1.060 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

Frequency Per Channel:

400.0 hertz operating channel

Signal Data Type Per Channel:

Operating channel servo

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
