Overall Length:

24.000 inches

Overall Height:

10.500 inches

Overall Width:

17.500 inches

Operating Temperature Range:

-0.0/+45.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Free-standing

Circuit Construction Type:

Solid state

Operating Ac Frequency In Hertz:

50.0 single voltage and 60.0 single voltage

External Ac Operating Voltage In Volts:

105.0 single voltage and 250.0 single voltage

Phase:

Single/three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
