End Application:

Ais test station, 2120450-003 for f-16 acft

Document Type:

Engineering drawing

Furnished Items And Quantity:

Housing assembly 1; cover 1; connectors 7

Mounting Method:

Connector

Amplifier Name:

Circuit card assemblys

Amplifier Quantity:

2

Amplifier Controlling Agency:

General dynamics

Amplifier Identifying Number:

Part number 2233600-001; part number 2233605-001

Functional Description:

Amplifier assembly, 10 mhz distribution

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T213-n
