| Average Life Measurement:          |
|------------------------------------|
| Not rated                          |
| Identification Designator:         |
| Jhpmacr-14-01113                   |
| Circuit Construction Type:         |
| Solid state                        |
| Overall Gain:                      |
| 50.0 decibels                      |
| Impedance Rating Per Channel:      |
| 75.000 ohms output channel err-100 |
| Shelf Life:                        |
| N/a                                |
| Unit Of Measure:                   |
|                                    |
| Demilitarization:                  |
| Yes - demil/mli                    |
| Fiig:                              |
| A32200                             |
|                                    |
