Overall Length:

18.000 inches

Overall Width:

11.875 inches

End Application:

Synchro signal amplifier

Component Type And Quantity:

1 motor and 1 support and 1 bracket

Special Features:

Maj comp: gear train 1, gear cluster 1, dial and hub assembly 1, support gear train 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
