**Overall Length:**

2.240 inches

**Overall Height:**

0.660 inches

**Overall Width:**

1.140 inches

**Operating Temperature Range:**

-54.0/+85.0 degrees celsius

**Average Life Measurement:**

Not rated

**Basic Shape Style:**

Rectangular or square

**Inclosure Type:**

Encased

**Installation Design:**

Module

**Circuit Construction Type:**

Solid state

**Frequency Per Channel:**

6.0 gigahertz operating channel and 18.0 gigahertz operating channel

**Overall Gain:**

20.0 decibels

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
