0	verall Length:
2.	300 inches
0	verall Height:
0.	226 inches
ο	verall Width:
0.	760 inches
0	perating Tempurature Range:
-5	i4.0/+85.0 degrees celsius
S	torage Tempurature Range:
-6	5.0/+150.0 degrees celsius
A	verage Life Measurement:
Ν	ot rated
в	asic Shape Style:
R	ectangular or square
ld	lentification Designator:
A	fd3-017018-12-k-33592
In	closure Type:
Н	ermetically sealed
0	perating Control Method:
A	utomatic
In	Istallation Design:
Μ	lechanical
С	ontrol Type:
R	emote
С	ircuit Construction Type:
S	olid state
F	requency Per Channel:
1.	7 gigahertz operating channel and 1.8 gigahertz operating channel
0	verall Gain:
34	4.0 decibels
С	onnection Type And Location:
R	eceptacle, coaxial left side and solder lug rear and receptacle, coaxial right side
С	onnection Contact Type And Quantity:
	receptacle, coaxial external and 2 solder lug external
E	xternal Dc Operating Voltage In Volts:
1	5.0 single voltage
S	helf Life:
Ν	/a
U	nit Of Measure:

Demilitarization:

Yes - demil/mli
