Inclosure Type:

Encased

Installation Design:

Transportable

Circuit Construction Type:

Solid state

Overall Gain:

46.0 decibels

Special Features:

25w; 10 hz to 1000 mhz frequency; 20 db harmonics at rated power; porm 2.0 db bandpass flatness; switching power supply

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
