Environmental Protection:

Salt spray resistant

Average Life Measurement:

Not rated

End Application:

Sattelite communications equipment

Basic Shape Style:

Rectangular or square

Inclosure Type:

Hermetically sealed

Operating Control Method:

Automatic

Installation Design:

Mechanical

Control Type:

Remote

Circuit Construction Type:

Solid state

Impedance Rating Per Channel:

50.000 ohms input channel err-100

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
