Inclosure Material:

Aluminum

End Application:

An/trn-41

Inclosure Type:

Encased

Installation Design:

Portable

Special Features:

6transmitting data; 126 x mode channels, 126 y mode channels, 962-1213 mhz; receiving data; 126 x mode channels, 126y mode channels, 1025-1150 mhz; output; 400 watts pulsed rf with 100 watt input; boosts output of existing system to provide 100 nm coverage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
