Average Life Measurement:

Not rated

End Application:

E3b, c

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Solid state

Overall Gain:

25.0 decibels

Special Features:

Amplifier, low noise

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
