**Overall Length:**

5.850 inches

**Overall Height:**

2.000 inches

**Overall Width:**

1.810 inches

**End Application:**

Mk7mod 1, module

**Basic Shape Style:**

Rectangular or square

**Inclosure Type:**

Encased

**Connection Contact Type And Quantity:**

21 pin internal

**External Dc Operating Voltage In Volts:**

8.5 2nd voltage err-100

**Special Features:**

Inavy)ku band amp filter assembly (drawing)ku band amplifier and filter assembly(6991105)

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A32200
