Reliability Indicator:

Not established

Overall Length:

4.000 inches

Overall Height:

5.200 inches

Overall Width:

1.800 inches

Surface Luster:

Matte

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Mechanical

Frequency Per Channel:

2.0 gigahertz operating channel and 8.0 gigahertz operating channel

Overall Gain:

25.0 decibels

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
