Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Rack

Circuit Construction Type:

Any acceptable

Signal Voltage Rating Per Channel:

20.000 volts output

Connection Type And Location:

Dual panel jack front

Special Features:

Permanent or removable adhesive mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
