Overall Length:

3.150 inches

Overall Height:

0.490 inches

Overall Width:

1.360 inches

End Application:

Amplifier, integrated rf

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Module

Circuit Construction Type:

Solid state

Special Features:

12-18 ghz two way

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
