Overall Length:

8.370 inches

Overall Height:

3.810 inches

Overall Width:

1.880 inches

Operating Temperature Range:

-40.0/+60.0 degrees celsius

Basic Shape Style:

Rectangular or square

Frequency Per Channel:

7.250 gigahertz output channel and 7.750 gigahertz output channel

Special Features:

Internal regulator; surge and transient protection; weatherproof enclosure; hemet/gaas fet design; minus 5 dbm output am/pm conversion; 11 to 24 volt power requirement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
