Overall Length:

0.375 inches

Overall Width:

0.295 inches

Operating Temperature Range:

-40.0/+125.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Special Features:

8 lead; dual in line package; single; 300mhz voltage feedback; epoxy dip; internally short circuit protected

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
