End Application:

Electronic equipment

Basic Shape Style:

Rectangular or square

Identification Designator:

Stm-2x..Stick on-0wy99

Inclosure Type:

Encased

Installation Design:

Portable and panel and top of cabinet/counter

Circuit Construction Type:

Solid state

Frequency Per Channel:

50.0 hertz operating channel and 25.0 kilohertz operating channel

External Dc Operating Voltage In Volts:

24.0 single voltage and 33.0 single voltage

Special Features:

Module will operate from 12 vdc supply with a 6db reduction in headroom and 5ms decrease in 'on' transition time

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
