**Operating Temperature Range:**

-45.0/+85.0 degrees celsius

**Storage Temperature Range:**

-65.0/+150.0 degrees celsius

**Average Life Measurement:**

Not rated

**Basic Shape Style:**

Irregular

**Inclosure Type:**

Encased

**Circuit Construction Type:**

Solid state

**Product Name:**

Monolithic amplifier

**Special Features:**

Low thermal resistance

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
