**Overall Length:**

7.400 inches

**Overall Height:**

1.840 inches

**Overall Width:**

5.090 inches

**Basic Shape Style:**

Rectangular or square

**Inclosure Type:**

Encased

**Circuit Construction Type:**

Solid state

**Operating Ac Frequency In Hertz:**

400.0 single voltage

**Special Features:**

Output power 25va; reference and power inputs 115vac; signal input format synchro; power supply plus 5vdc

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
