Overall Length:

9.000 inches

Overall Height:

1.400 inches

Overall Width:

1.400 inches

Average Life Rating:

15000.0

Average Life Measurement:

Hours

End Application:

An/usm-464

Basic Shape Style:

Rectangular or square

Inclosure Type:

Hermetically sealed

Installation Design:

Free-standing

Circuit Construction Type:

Solid state

Special Features:

High power assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
