**Overall Length:**

25.000 inches

**Overall Height:**

10.500 inches

**Overall Width:**

19.000 inches

**Basic Shape Style:**

Rectangular or square

**Identification Designator:**

200ij-8m906

**Inclosure Type:**

Encased

**Installation Design:**

Rack

**Circuit Construction Type:**

Solid state

**Frequency Per Channel:**

6.0 gigahertz operating channel and 18.0 gigahertz operating channel

**Average Power Rating Per Channel:**

200.0 watts output

**Overall Gain:**

53.0 decibels

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A32200
