End Application:

2.4-meter sfc/x/k flyaway antenna system

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

Overall Gain:

70.0 decibels

Special Features:

Solid state x-band power amplifier with integral block-up converter; 125.0 watts; serial interface; painted finish, color num. 34094 per fed-std-595b, green 383; similar to cage 0hf70, p/n pxb8125/c/a/7 or p/n pxb8125a.0004

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
