Overall Length:

7.000 inches

Overall Height:

3.000 inches

Overall Width:

2.500 inches

Operating Temperature Range:

-30.0/+60.0 degrees celsius

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Average Power Rating Per Channel:

20.0 watts output

Product Name:

Multiband amplifier

Special Features:

Input voltage range 10.0 to 36.0 dc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
