End Application:

472-tno-910/913

Basic Shape Style:

Rectangular or square

Inclosure Type:

Hermetically sealed

Installation Design:

Mobile and module

Circuit Construction Type:

Solid state

Frequency Per Channel:

2.4 gigahertz operating channel

Special Features:

Increases radiated power up to 1 watt, 2.4 ghz

Functional Description:

Rf amplifier for high gain version ii wireless link kit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
