**End Application:**

472-tno-910/913

**Basic Shape Style:**

Rectangular or square

**Inclosure Type:**

Hermetically sealed

**Installation Design:**

Mobile and module

**Circuit Construction Type:**

Solid state

**Frequency Per Channel:**

2.4 gigahertz operating channel

**Special Features:**

Increases radiated power up to 1 watt, 2.4 ghz

**Functional Description:**

Rf amplifier for high gain version ii wireless link kit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
