Overall Length:

1.320 inches

Overall Height:

0.310 inches

Overall Width:

0.750 inches

Operating Temperature Range:

-30.0/+75.0 degrees celsius

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

Frequency Per Channel:

20.0 gigahertz operating channel and 40.0 gigahertz operating channel

Special Features:

Output power 20.0 dbm min; noise figure 9.0 decibels

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
