Overall Length:

0.400 inches

Overall Height:

0.400 inches

Overall Width:

0.310 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

South korean government

Basic Shape Style:

Irregular

Product Name:

Operation amplifier, microelectronic

Special Features:

Amplifier with input biascurrent of 3.0 na over temperature; offset current less than 400 pa over temperature; supply current of only 300uaeven in saturation; guaranteed drift characteristics

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
