Overall Length:

4.980 inches

Overall Height:

3.880 inches

Environmental Protection:

Weatherproof

Operating Temperature Range:

-40.0/+60.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Frequency Per Channel:

3.4 gigahertz operating channel and 4.2 gigahertz operating channel

External Dc Operating Voltage In Volts:

15.0 single voltage

Product Name:

Amfw ultra low noise c-band waveguide lna

Special Features:

Fault alarm option; output p1db of plus 20 dbm option; 30k max. Noise temperature

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
