End Application:

Es sensor un set 2 unit 1 e1 isis ssgn fc102

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

Product Name:

Amplifier, low noise 2-18ghz

Special Features:

Freq range 2-18ghz; gain 26db; dc power 12v, 180 ma max; stability is unconditionally stable; noise figure 4.6db max; noise figure at 25 degrees c 3.8db max

Functional Description:

Amplifier, low-noise 2-18ghz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
